

"I highly recommend Ilse. She brings a unique set of skills: tech prowess, understanding of marketing and an ability to grasp the big picture of many business platforms. She also excels at guiding you down a path to get your vision clear, but also knows how to guide you in the details of execution. She's caring, inspiring and a pleasure to work with"

Gerry Mihalick- Portfolio Manager and Entrepreneur

I worked with Ilse after realising I needed some help with understanding where I wanted my career to go. Ilse took it back to the basics and helped me drive out the key 'must have' elements I needed to strive for. Working with Ilse was eye opening; it allowed me to explore blue sky thinking and unlocking my potential

Emma Wilcox - Engagement Manager- FlyForm

Ilse helped me work out what was important to me. I found that my values were clashing with my workplace and manager, leading to high levels of tension in the workplace. There were also some deep issues from my previous workplace where I worked for several years.

Ilse, never judged or made assumptions. She acknowledged the way I was being treated was not right, this seems a simple thing to say, but when you are in the pressure silo, it can be difficult to know when one is being irrational. I left my unhappy job and are now more assured and accept who I am. Ilse was good to work with because she has also worked in the corporate world so can appreciate those difficult situations in the office environment.

Gareth Owens - Planning Officer

"I can't recommend coaching with Ilse enough. She helped me understand what was most important and most fulfilling for me, zeroed in on the causes and effects which were holding me back (which in my case was mostly impostor syndrome and lack of self-confidence), and gave me the tools to overcome blockers and work towards my goals.

She is professional, unbiased, and respectful, and an extremely good listener, advisor, and confidant. And has an uncanny ability to see the positive in absolutely everything! "

Jessica Blakey - Principal consultant at Unifi

"You should be proud of yourself, is not everyday you get to sell the brand you've built to one of the biggest companies in the world."

John Guilleran - Co-Founder - FGE - sold to Accenture

"Waking up early, ENERGIZED and ready to live my amazing life".

Gerry - Financial Services Executive

"I find myself sitting here almost a new person, but the same person I have always been. I feel so empowered. This may be nuts and out of the blue, but knowing you and just that one zoom conversation where you said I need to believe in myself have, I feel, altered my mind - I am ready to hear it now. I feel so fantastic I cannot put words to it"
